Appl. No. 10/541,330

...REMARKS...

The present Supplemental Amendment corrects a typographical error on page 6 of applicants' specification.

Support for this amendment which corrects the typographical error can be found by noting that in the original specification of WO 2004/067579 A1, "polyethylene oxide (n=10 to 90)" is found on page 6, lines 2-3.

This change to the specification which corrects a typographical error, is believed to support applicants' claim limitations.

Entry of the present Supplemental Amendment is respectfully requested.

If upon consideration of the above, the Examiner should feel that there remain outstanding issues in the present application that could be resolved, the Examiner is invited to contact applicants' patent counsel at the telephone number given below to discuss such issues.

To the extent necessary, a petition for an extension of time under 37 CFR §1.136 is hereby made. Please charge the fees due in connection with the filing of this paper, including extension of

time fees, to Deposit Account No. 12-2136 and please credit any excess fees to such deposit account.

Respectfully submitted,
